## WORKSHOP REPORT

A workshop was held on "How to be successful in life " by Mr Vikram Rai on $4^{\text {th }}$ May'22. The session was attended by students of grade XIIth .

Mr Vikram Rai is the Country Head for GE aviation for South Asia and Indonesia. He has been ranked top 40 under 40 business leaders of India by Economic Times. Recently, he has been awarded as the "Young Aviation Leader" by the minister J M Scindia. He is an alumnus of our school, batch of 1998.

In the session he shared about his professional journey with students. Next, he shared his struggles. He emphasized upon his attitude of being positive in life and always focusing upon his drive to achieve success and putting in determined actions in the right direction. In the end, he spoke about his social welfare projects and the spirit of giving back to society.

The session was very enchanting and students were motivated by him to become tomorrow's leaders.

Student feedback of the session:

- Chitrangda , Grade XII
" Mr Vikram was definitely motivational with a baggage of stories and lived experiences. He spoke about the school in 1998 all the way to his present job. He couldn't have explained his journey in a better way. The main thing I grasped was that we need to find our passion in life.

To sum up,the entire experience was captivating and very interactive. I personally really enjoyed the session"

- Siddhant Suri , Grade XII
"It was very informative and sir helped us in bringing out our hidden confidence. We learnt a lot. Mr Vikram was very inspiring. His success story is a lesson to keep trying till you succeed."
- Yamini Banana, Grade XII
" Mr Vikram spoke about his journey and importance of keep trying in life because he said trying and failing are part of the journey to success. He also spoke about value of giving back to society.

His words resonated with the students and inspired and motivated us to reach for greater heights in life."
