

Annual Inter- School Art and Poetry Competition 'Strokes and Stanzas 2020'

Cambridge School Indirapuram organized the Annual Inter- School Art and Poetry Competition ‘Strokes and Stanzas 2020’ On Nov 19,2020. The central theme was HOPE. For Classes IX-XII, the activity- Visual Poetry was organized. In visual poetry, the poet organizes the words and /or lines in such a way that the visual effect of the work helps the reader and engage with the theme of the poem. Daizal Dandona of class IX E of our school, bagged the first position in the competition, projecting her thoughts and ideas through visual poetry.

The essence of her composition....

Every human alive goes through a phase when they are either in a haze and don't know their next step or has given up because they feel that they can't do it. It's not just in some of us, but in all of us. And, the most important thing in times like these is to remember that God won't ever send a problem our way if he doesn't believe that we can solve it. All we need to do is have faith in ourselves and have hope to dazzle the brightest we can! Even in the race of tortoise and rabbit, the tortoise as we all know is one of the slowest beings, but still it succeeded to win against the rabbit... As for the famous ship that sunk, it is believed that many people did survive. Life is filled with all such examples and experiences. Many successful people too didn't conquer their goal in the first try, and when they were just about to give up. They added a spoon of hope... They got hopeful, further on got encouraged and decided to not give up. Amidst the pandemic, we all know that there is uncertainty of life, yet we all still keep on going because we have hope that there is going to be a better tomorrow. Hope is all about that only and as long as we stay hopeful and hold our ground, there is no problem that could shake us.

The final outcome

A spoon of Hope
