

Aashayein - On the wings of hope

Shanti Asiatic School Ahmedabad organised its annual fest in the month of December. It's title was "Aashayein - On the wings of hope....". The school organised various competitions for all students under various categories. The school organised a maths competition for classes IX-XII. The theme was Play 2 Learn where participants were asked to make a mathematical game using mathematical concepts. The mathematical game should be original , educational and entertaining .

The participant had to prepare a video explaining the mathematical concepts used in the game. The results were declared on Wed 23 Dec 2020 through the Facebook page of the school. This was a live event where all students, teachers and parents were present. One student from our school Aditya Mishra IX B participated in this competition and bagged second prize . He made a mathematical game namely TRIANGLE MAZE . The game used the concepts of Inequalities of Triangles, Angle Sum Property of a Triangle, Algebra, Geometry and Mensuration. It was a board game which required Pegs , Dice , 2 or 3 players and an organizer . Quick mental Maths, mind strength and honesty were the main values that have to be followed in this game. The school is proud of the achievement of Aditya Mishra IX B.

Date of announcement of results: 23 Dec 2020
