

EXPLORING MASS IN PHYSICS

“When people of similar frequencies come together, output is not a simple sum of individual work, but exponential. In science we term this phenomenon as resonance. Output at this stage is beyond any logical limit.”

Physics is a subject which beautifully connects with Music, Arts, Sports and Spirituality. Based on this theme Delhi police public School organised an interschool festival Aroma 2021 on September 06, 2021. Schools from all over Delhi participated in the event. Our Students Aditya Chaudhari, Tanishq Mishra and Amit Kumar Jha of Class XII participated in the event and secured Third Position.

Our students integrated the concept of resonance with sports, music, arts and spirituality.

Heartiest Congratulations!!!

		
Aditya Chaudhari	Tanishq Mishra	Amit Kumar Jha
