

Utsav 2021

“There are in fact two things, science and opinion the former begets knowledge, the latter ignorance”

-Hippocrates

They say myth travels faster than true facts, and in order to debunk these common myths, an interschool competition named *Utsav 2021* was held at Indraprastha Global School. Schools from far and wide of Delhi participated in the competition. Our student Anagh Sriram of class X secured THIRD position in the event ‘MYTH DEBUNKED’.

The students were asked to make a video debunking a common myth which is scientifically untrue. Our student, Anagh, uncovered the truth behind some common myth regarding the human brain.

Many Congratulations!!
