TRIPS & EXCURSIONS

"I hear and I forget, I see and I remember, I do and I understand" – Confucius

Schools that include educational trips as part of the curriculum provide students the joy of discovery and opportunity to learn new things through travel. Educational tours are a great way for students and educators to absorb, interact and to grasp theory practically. They are not only a huge welcome break for both the students and teachers but also of educational significance to both of them. Keeping this in mind, our school took the initiative to make their students explore the simplicity of the countryside through a visit to Surajgarh Farms. Exquisitely decorated with local art & craft, it was a fun-filled outing where the students along with their teachers experienced genuine rural and cultural heritage. The students enjoyed a host of activities like camel cart ride, bullock cart and tractor ride. Equally fascinating was an exposure to the long forgotten traditional games like Kanche Goli , lattoo , pithoo, gulel, kite flying to name a few. The students also enjoyed Archery, Air Gun, Dart Shooting, Trampoline, Tug of War, Burma Bridge etc. Scrumptious food and foot tapping music in the DJ area made the visit a memorable one.
