## WINTER CARNIVAL 2018

**A** winter carnival was organised by the school, on its premises which witnessed immense participation by students and their parents. The school grounds pulsated with scintillating music and a lively crowd. The carnival had something in store for everybody, be it children or adults.

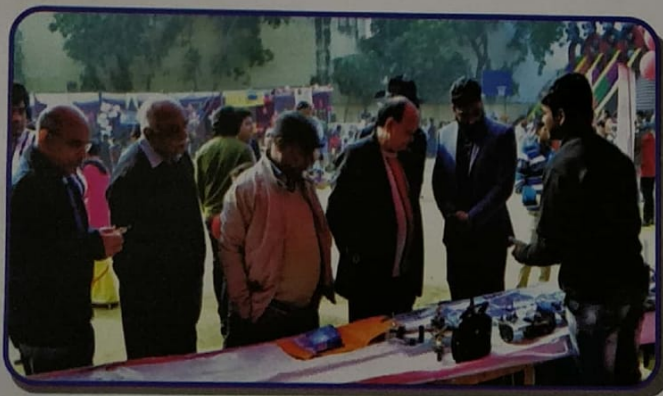

Various game stalls were put up at the carnival for the entertainment of visitors. Stalls offering games like, "Hit the red ball, Smash the pyramid, Feed the clown, Bangle the doll, Prick and pick the potato, Try your luck and Hit the bulls eye", attracted the visitors.

The programme started with a KIDS SHOW for primary students where the

participants showcased their singing talent followed by solo dance show by the middle wing students.

The students and their parents spend some time together and enjoyed the activities. The stalls put up by students of Stem Club was a crowd puller.

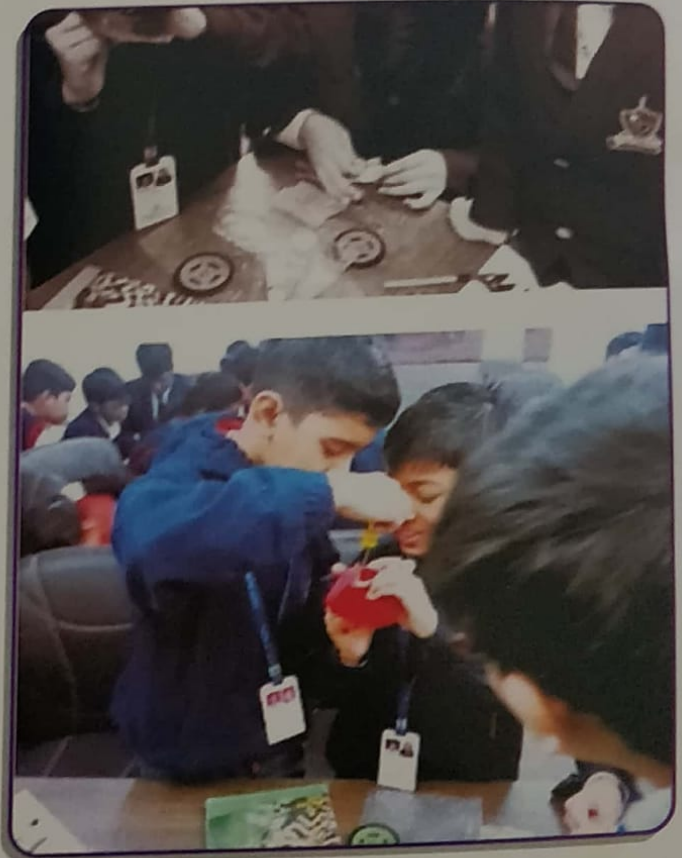

A very special segment catering to the interest of the kids included a variety of rides and games and tattoo were added attractions. An array of edible delights, raffle draw and exciting prizes ensured an unforgettable time with near and dear ones. The zest and zeal exhibited by an enthusiastic crowd of visitors and participants made the Winter Carnival 2018 a memorable one.

# CLUB ACTIVITIES

**A**ctive Brain club encourage students to learn problem solving and collaboration — skills that gives child an edge in school and careers. Students build confidence, creativity, exploration and hands-on problem solving.

## SAFETY CLUB

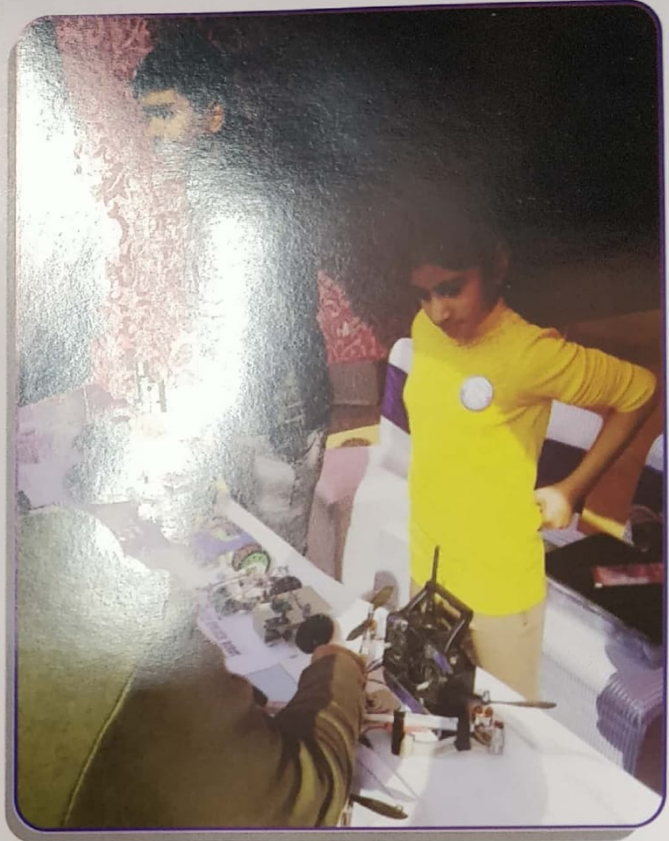

# Robotics, Astronomy, Smart Electronics and Renewable Energy

**S**tudents work in teams — collaborating and sharing ideas to investigate, create and test the best solutions.

In each session of our Robotics and Science programs, the students team up with partners to:

- Explore a real-world science question — from physics to earth sciences — in a highly collaborative and creative space.
- Put on their detective hats to develop hypotheses and prove them out.
- Design, build and program robots or other creations to investigate a solution.
- Experiment and problem solve, continually improving their creations.

They work just like real scientists and engineers do.

## EDUCATIONAL TRIPS

Students of class 3, 4 and 7 went on an educational trip to the Indian Air Force Museum located at the Palam Air Force Station. It was truly exhilarating for the students to witness different types of planes at one place.

The Air Force Museum, houses a rich collection of memorabilia of Indian military aviation and has an extensive display of the history of the Indian Air Force. Our students got a first-hand familiarisation with equipment and history of the Air Force. It was indeed an educational visit as the little ones came to know more about the history of Indian Air Force and its contribution to the nation.

## Visit to Rail Museum

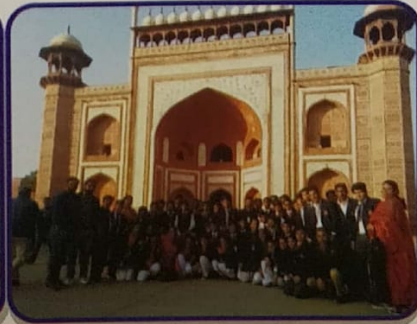

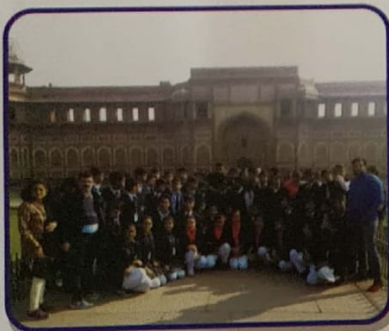

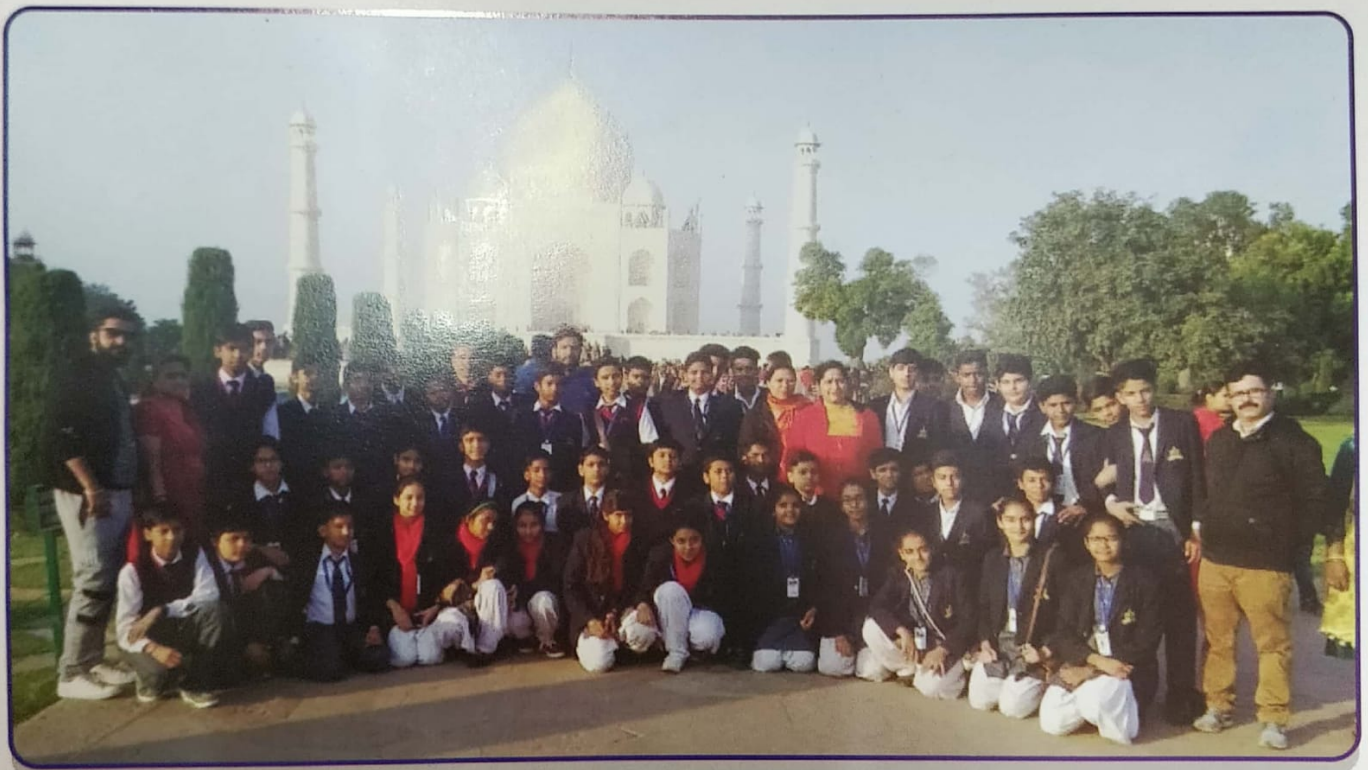

The Pre-Primary students visited the Rail Museum. The children were excited to see different working models of engines and passenger trains. The tiny tots enjoyed the train ride and spent the day outdoors with their friends.

## Educational Excursion to Agra

**T**he School arranged an educational trip to Agra for the students of classes 7 and 8 who were also accompanied by their teachers. They enjoyed the tour to Agra city with a visit to the world famous Taj Mahal, the finest example of Mughal architecture that combines elements from Persian, Turkish and Indian architectural styles.

Agra fort added a great deal to the students' knowledge of historical background and acquainted them better with the rich heritage of India. The visit to the Agra Fort was truly rewarding. Students had loads of fun and enjoyed every bit of their tour to Agra. The students enjoyed the overnight stay with their friends. The trip was an enthralling and unforgettable experience for the students.
