

Financial Education Training Program

Conducted By Mr. Rajnish Jain

Lack of basic financial understanding leads to unproductive investment decisions. Financial regulators in India—Reserve Bank of India (RBI), Securities and Exchange Board of India (SEBI), Insurance Regulatory and Development Authority of India (IRDAI) and Pension Fund Regulatory and Development Authority (PFRDA)—have created a joint charter called ‘National Strategy for Financial Education’, Under the aegis of this Joint Charter and to create Financial awareness among the citizens of our country. A special financial literacy program for the teachers enabling them to impart basic financial education in school was organized at JM International School on 2nd March 2019, Saturday. Mr. Rajnish Jain was the speaker of the session and discussed about various avenues of tax saving and skills required to take good financial decision at personal level

The vision behind the conduct was to create a financially aware and empower India by providing education about managing the money more effectively and appropriately. Speaker started with introducing banking and various product and services offered by banking sector in modern era. He further talked about the various saving and investment options in the capital market and how to plan for retirement

In crisp the Financial Education Training program resulted in making “Money Smart Teachers” who are well equipped with the financial knowledge and are enabled to impart basic financial knowledge to students as well.
