

CARING FOR THE ENVIRONMENT WORKSHOP CONDUCTED BY FORTIS HOSPITAL, VASANT KUNJ

“Progress is impossible without change, and those who cannot change their minds cannot change anything”, keeping this spirit alive, Fortis Hospital organized a workshop for the students of grade IX & XI to create awareness on environment among the students. Workshop was full of activities which made students realized about issues arising on the earth and how we can prevent it by adopting innovative ideas and come out of them. This workshop not only made aware students but also made them realize that it’s their own planet which they should take care of. All the students participated and later planted saplings in the hospital. All the students were gifted a mug as a token of appreciation. Overall, it was a very learning and a fruitful experience for all.
