

## **Workshop by US University Representatives**

A Career Counselling workshop was conducted on 16 April 2019 by Ms. Fai and Mr. Samuel Reed from Wichita State University, Kansas at JM International School. The workshop was a part of the US University student outreach programme. The representatives had a healthy discussion about careers paths and goals and all they had in store for the students as an educational institution.

The students attended the workshop were informed about the different universities, namely its location, size and history followed by the offered stream and qualification to take admission. Ms. Fai also took the initiative to briefly explain the application process to the students, allowing them to have a better idea as to how they may enroll into the university. The representatives also took the time to entertain the questions from the students even after the workshop was over like which University has good scholarship programs and who offers affordable research etc. The workshop was a huge success, allowing the student to start prioritizing their careers early ensuring a better future.
