

Emerging Careers in Science & Commerce/Humanities Workshop

Conducted by: Mr. Ritesh Jain

JM INTERNATIONAL SCHOOL, DWARKA organized a workshop for grade XI Science and Commerce/Humanities sections on a very significant topic “EMERGING CAREERS IN SCIENCE & COMMERCE/HUMANITIES” on 29th July 2019. In the workshop several careers options besides engineering, medical, chartered accountant, civil services etc. were thoroughly discussed. Many other emerging fields like **data sciences & data analyst, bio-engineering, machine-learning, robotics, nanotechnology, data computing, financial analytics, investment banker** etc were also explained. Also the universities & colleges offering these courses and the eligibility & the process to take admissions in these courses was also clarified. Also the queries of students were also solved regarding any course which they want to pursue after XII. Students got to know about other fields in which they can make their careers & most importantly students got to know that there are other fields too besides medical, engineering, chartered accountant & IAS/IFS/IPS in which a very bright future they can have.
