

# Card Making Workshop

## conducted By NIE

JMIS always believes that Imagination leads to creativity.

To explore the innate potential and to channelize the creativity of the students, a workshop was conducted on card making. Students of **class VI A & VI B** attended the workshop and got an opportunity to enhance the art & craft skills. Students made Pop-Up cards in which they had shown different animals.

Students had an enriching experience and got an opportunity to develop their skills by using their imagination.
