

Speaker of the year (2019-2020) Workshop
Conducted by Maverick Ventures
Theme: Flora and fauna

JM International school piloted a workshop conducted by 'Speaker of the year' team for all the students in school auditorium. SOTY provides a national platform for all the ignited budding minds who can excel in expressing their opinions firmly. JMIS has always motivated the students to avail such exposure and opportunity and there were a lot of students who did take part with great enthusiasm. SOTY workshop was regarding the idea of speaking for a minute on an abstract topic and learning to win a bout amongst other speakers. This platform encourages students to be thinkers before speakers. The team proposed their theme of the current session - Flora and Fauna. The idea is to let students delve into the nitty gritty of the topic.
