

CCD WORKSHOP (GRADE XII)

(PROFILE BUILDING)

Name of the Workshop- PROFILE BUILDING

Resource Person- Mr. Jitin Chawla

Date- 26th April 2022

Duration- 1 hour

Venue- School Auditorium

A career counselling workshop was conducted in our school by eminent speaker

and counsellor Mr. Jitin Chawla. The main topic of the workshop was profile building. To create a good profile, one needs things like internships, research papers, social works and extracurricular activities.

These are those aspects of a CV that all the top universities across the world look for. Students were very well guided on how to decide the best foreign university that suits them best and to look and apply for internships while one is still a high school student. There are a lot of free courses available on the internet that can help one to improve his/her skills and knowledge which makes it easier to get internships as well as write research papers. There are a ton of NGOs that one can work with to gather knowledge and experience.
