

## NTSE SEMINAR REPORT

**Topic of the Seminar:** NTSE Seminar

**For Grades:** IX and X

**Resource person:** Mr. Deepak Singh

**Date:** 23/08/2022

**Duration:** 1 hour

**Venue:** School Auditorium

### **Content:**

Resource person, Mr. Deepak explained about various competitive exams like JSTSE, NTSE at secondary level. NTSE is conducted by NCERT to screen meritorious students with scientific aptitude. The resource person informed students about its importance and also about the scholarships awarded to the qualifying students. An NTSE scholar can appear for the admission test of a college and get direct entry to it. Qualifying the scholarship exam is an added advantage when applying for jobs. An NTSE scholar is given preference in government and other prestigious jobs.

He also explained about MAT (Mental Aptitude Test), importance of Aptitude, logical reasoning etc with some interesting examples. Students found these examples quite interesting. MAT covers 50% of the total weightage of the NTSE. To crack this test therefore, students must have rigorous practice for MAT besides covering their Class 9th & 10th syllabus of Science and Math.
