

Pariksha pe Charcha-2022

JM International School, Dwarka has been devotedly preparing students to reflect on their opinions and views about the concurrent topics across the world. We aim to indulge in a constant transaction of addressing stress and anxiety about exams. Our students are encouraged to speak openly about their apprehensions with their teachers and parents without any hesitation. Moreover, several workshops and seminars have been conducted in the school and have instilled a great sense of assurance and boosted the morale of the students from the perspective of examinations.

To mould the future leaders of tomorrow into efficient leaders, students of JM International School actively took part in a distinctive online writing competition organised by the school in collaboration with the Department of School Education and Ministry of Education under a vision conceptualized by PM Narendra Modi - PARIKSHA PE CHARCHA. The online writing competition engaged the stakeholders who could nominate themselves in the annual interaction with the aim to stimulate confidence.

JM International School is always driven to support such educational programs where students, parents, and teachers across the nation learn to beat exam-related stress and overcome their anxiety.
