

# LITTLE SPARKS

April 2022 - September 2022

## From the Principal's Desk

**'We believe that education is about opening a child's curious young mind to self-expression and creative thinking'.**

As I stroll down the corridors of the pre-primary wing, I feel elated to witness the chatter of eager young minds, their shouts of excitement, the perpetual energy, movement and gusto permeating the classrooms.

I feel proud to state that our young 'saplings' are encouraged participation in various co-curricular activities to nurture their individualism, creativity and innovation thereby enabling them to explore and find their strengths in order to reach their true potential.

We bring out our edition of 'Little Sparks', encapsulating their aspirations, achievements and participation in various school activities. I take this opportunity to congratulate the students, parents and teachers who have helped us in translating our fond dreams 'Little Sparks' to reality.

**Atul Wadhawan**

## Rainy Season Activity
