SESSION 2022-23

Event Name : Fun with Arrays

DATE : December 22, 2022

PARTICIPANTS: Class II

INCHARGE : Ms. Lipasha Khanna

Report

"The only way to learn mathematics is to do mathematics."- Paul Halmos

In an effort to lay a strong foundation in Mathematics, the **Aryabhata Club** organized '**Fun with Arrays**' activity for the students of Grade- 2 where visualization and learning was in abundance. As a learning tool, this activity helped students to understand the meaning of multiplication. Children made different Arrays to represent multiplication sentences. It enhanced Math problem- solving skills of the young ones. It helped them to improve their multiplication skills, instill love for Mathematics and stirred their creativity. Students learnt to appreciate the beauty of Mathematics and acquired knowledge about the subject. They learnt about the invaluable contributions of the great Indian mathematician, Aryabhatta. The activity was a success in intriguing the students about the exciting world of Mathematics.
