INCHARGE : Ms. Latika Goel & Ms. Bharti Gaur

Report

**“Mathematics and Art are considered the
pinnacle of human creativity.”**

Aryabhata Club organized ‘**Mandala Art**’ Activity on **December 21, 2022** for the students of Grade- V. The objective of the activity was to promote their interest in mathematics, enhance their aesthetic skills, conceptual knowledge and help them to overcome their fear of Mathematics. This activity allowed the students to understand that mathematical shapes can be put together to make beautiful artwork. It increased their flexibility while thinking about different shapes like triangles, squares, rectangles and circles.

All the children participated with great zeal and zest.
