Glimpse of the Workshop

A workshop on anti bullying was organised by MBS International school for the students of grade IV and V on 4th October,2019 in the school auditorium by Ms Monika Dhingra.

Bullying is an issue that regularly needs to be addressed in schools. Students were introduced to the topic through a movie which highlighted the issue of bullying.

The primary aim of the workshop was to sensitize the students about the different kinds of bullying which are prevalent in our society. The students were made aware of the types of bullying, how to identify a bully and how to seek help in situations of bullying. The students were also taken through a power point presentation on the various types of bullying. It was an interactive session in which students were encouraged to be empathetic and treat everyone with respect and compassion.
