An Anti-bullying workshop was conducted for the students of class IX-XI on August 6, 2017 in the school auditorium to sensitize the students about the nature of bullying, its types – Physical, Verbal and Cyber bullying and the long-term impact it can have on a person's physical and mental health. The workshop was conducted by the school counsellor, Ms. Shruti Sridhar, with the aim of making students aware about the difference between 'Normal Peer Conflict and Bullying', the consequences bullying can have on a person's life and how to seek help.

It was a very enlightening workshop wherein an 'Anti-Bullying' pledge was taken and children were encouraged to be a buddy and to be mindful about their words and actions.
