“Consciousness is only possible through change; change is only possible through movement.”

A workshop was conducted by Career Launcher to make students aware of the multiple career options they have after class XII. They addressed all the questions raised by students on different career options.

It was an interactive session, wherein the students were allowed to participate and speak the answer in the least possible time. Team Career Launcher shared the brilliance. The students had various queries regarding different kinds of problems which were adeptly answered by the resource person. It was a session to which the students looked forward and were happy to attend and to know about different job options. The workshop benefitted the students.
