

MBS INTERNATIONAL SCHOOL

WORKSHOP FOR STUDENTS

SESSION 2022-23

TOPIC: Maths Challenge

DATE: October 6, 2022

ATTENDED BY: VI TO XII

VENUE: Auditorium

“Mathematics is not only about numbers, equations, computations or algorithms. It is mostly and majorly about understanding.”

Grounded on some fundamental Maths challenges conducted for classes VI to XII, Maths test is an excellent tool for developing interest in numbers and making calculations a fun. With this in view, MBS International School conducted a maths challenge. The objective of this test was to facilitate a habit of analytical thinking and a measured approach toward any problem. The Test benefitted the students and helped them to understand their weak and strong areas in mathematics.
