#### **Glimpse of the Event**

It's all about inspiration, creativity, talent, ideas, innovation, passion, confidence, business, originality & expression & for this, all one needs is a New Dress, to express & not impress.

The students of all the houses participated enthusiastically in the competition & came out with flying colors. The dresses made by students were very creative and innovative.

The "budding designers" conceptualized and completed the task in mere 45 minutes and showcased the final polished product by making the garment with the most delicate material „Newspaper“. So it made them look good and was a huge hit too.
