TRIP TO FIRE STATION

At JMIS the trips and tours are organized to infuse the practical ways of attaining rightful knowledge. Our explorers our JMians learn tag it as how it is done?

The trip to fire station was carried out to make our JMians understand the importance of being vigilant and aware of surroundings. Accidents and emergencies don't ring a siren before happening so that need to be careful and act intelligently rather to panic. They closely observed how to a fireman works 24 hours a day how each process to save from hazardous situation is carried on. All curiosities were answered when they had an interactive session and saw a live fire drill, fire brigade, a hose pipe and other safety equipments. At JMIS we aim to make our tomorrow s future an alert and observant person.
