

AWARENESS DRIVE

Save our Planet

Date- 1 April to 30 April

Our planet is on the brink of destruction. The years of torture that we humans have inflicted upon our planet has taken a toll on it and propelled it towards a point of hopelessness. We are the children of Mother Earth, and it is our duty to save our Earth.

We have been cutting trees recklessly for our use. We must plant as many trees as we can in our limited lifetimes, to bring the previous lush green forests back to life. If we can all plant a sapling each, every year then, the Earth will be filled with nearly 7 billion trees in one year.

Pollution has been the root cause of the destruction of our planet. From seas to land, and even mountains; every place has been covered with debris and litter. Our Earth is choking, and we must act urgently to prevent it from becoming a dead planet. We must adopt the three steps of 'Reduce, Reuse, and Recycle' to limit the amount of waste we produce. We can recycle plastic to prevent it from littering the entire surface of our planet. The situation is critical, and the next few years will determine how far we will go as a civilization. We cannot change our past, but we can alter our future through our present-day actions.

Air Force School Camero organized an awareness drive "Save our Planet" to celebrate Earth Day. Following activities were planned for the students:-

- Speech on Earth day- one student from each class
- Making one potted/ bottled indoor plant- Classes- 1,2,3,4
- One craft item (Best out of Waste)- Class-5
- Movie Show: Jungles (Netflix) 1 hr
