

Report on Class VII trip to the Red Fort

Date : 19 November 2016
Venue : Red fort
Organised by : ITL Public School
Conducted By : Itihaas group
Participants : Students of Classes VII along with their class teachers

ITL Public School, Dwarka in association with ITIHAAS , organized a trip to the **Red Fort** for the students of **Class VII**. The objective of the trip was to encourage every student to understand the historical significance of the location and structure of the **Red Fort**. The students were sensitized towards the archaeological richness and cultural heritage of the monument which gave them an opportunity to observe the Indian heritage closely.

This was followed by lively discussions on the functional usage of the various structures, gardens and drains. Students displayed enthusiastic participation in the storytelling session conducted by the two primary facilitators from Itihaas, Ms.Shivani and Mr.Mohsin. Towards the end, the students were made to realize the plundered state of the monument and the measures thus taken by the government to stop the reckless exploitation of the rich cultural heritage of the country. To conclude this wondrous session of learning students were made to attempt a worksheet for their self-evaluation. It was a memorable experience for the young learners and gave them an insight into different aspects of the historical sites.
