

Report on Career Development Workshop

Name	:	Career Development Workshop
Date	:	27th November 2017
Venue	:	Indian Heights School, Dwarka
Conducted by	:	Mr. Harri Lahdekorpi, Project manager for Haaga- Hella University, Finland
Organized by	:	Indian Heights School, Dwarka

“Success is not a moment, rather it is a path”

This very insightful thought was given by Mr. Harry Lahdekorpi, a counsellor from the HAAGA HELIA university in the workshop held at ‘The Indian Heights School’ on 27 November 2017.

The workshop acquainted students with the advantages of studying in Finland. With a population as little as 50 million, Finland provides equal opportunities to all students and ranks 1st in the world for bias free education system. It also provides placements in well-known MNCs and help the students to become inventors, rather than discoverers.

After the workshop, the students came out with a broader approach towards their higher studies and increased knowledge about the European education system.
