

ITL ORGANIZED GYAN SETU : A TECHNICAL DISCUSSION AND PARTICIPATED IN TECH SIKSHA

Event-‘GyanSetu’

Date : 11th May 2018
Venue : Language Lab
Conducted by: Mr Subhajit Bhattacharya
Organized by : Computer Club, ITL Public School
Attended by : Students of classes VIII-XII

Computer Department of ITL Public School organized a **technical discussion session ‘GyanSetu’** to update the knowledge of students regarding the latest technological developments. The resource person was **Mr Subhajit Bhattacharya-Program Manager for Innovation and Automation at Accenture**, an active member of Advisory Council member of Harvard Business Review, USA, Chairperson for special sessions in international conferences, Technical Advisory Board member for national conferences. Mr Bhattacharya gave valuable information on latest IT technological implementations like ***Internet on things (IOT), Machine Learning, Augmented Reality, Big Data and Deep Learning.***

Mr Bhattacharya discussed in length on **IOT**, the technological advancements with their needs, implementations & future scope.

It was a learning experience for students wherein they freely clarified their doubts and concerns related to emerging technologies.

Event-‘Tech Shiksha’

"Gaining knowledge is first step to wisdom, sharing it is the first step to humanity"

ITLeens from classes V-VIII visited NGO LECIN (lets educated children in need) with the motto of technical empowerment to the less privileged children and to help them get attuned to basic technological devices like laptops and mobiles and to give hands-on experience on basic software like Ms Paint, Ms Word etc.

The overall event proved to have a profound positive impact on each child and our students learnt how to share knowledge and resources while NGO students learnt to work on computers. It proved to be an enriching experience for them.

This type of social visits endow a potent platform to the students to share their knowledge thus getting a chance to accomplish useful service to the society and on the other hand for the NGO students the session was indeed educative and enriching.
