

## **Report- Story Telling Session**

**Date: 25 July 2018**

**Venue-Science Lab**

**“Children love the world of imagination and fantasy”**

In the fast-paced world of today where story telling by parents and grandparents has become a rarity, ITL Public School organized the ‘Story Telling’ session for the students of Classes III-V. Mrs. Nupur, the reputed story teller was the resource person for the day. Her story telling was very engaging and it could paint visual images in listener’s mind. With Mrs. Nupur’s effective narration, the students were transported into a dream world on the wings of fancy and imagination. The session proved to be very useful as students experienced voice modulation, stress and intonation in the speech of the story teller. Their love for reading would enhance and will help in building child’s innate capacity for fantasy and imaginative play.
