

ITL Public School organised Workshop on Improving the world with the power of Skills

Date : 24 July 2018

Venue : Auditorium

Organised By : ITL Public School

Attended By : Class IX & Class XI students

Conducted By : Mr. Ravi Kharbanda

ITL Public School organised a very informative workshop on “**Improving the world with the power of Skills**” on **24 July 2018** by **Colonel Ravi Kharbanda**, Technical Consultant at National Skills Development Corporation. Spanning the discussion from empowering the youth of the country by teaching a skill, enrolling the youth with government organisations which are working towards bridging the gap between the skilled and unskilled citizens and training them, Mr. Kharbanda adequately and articulately enlightened the students on various Government schemes to become skilled and compete in the global arena. The interactive question answer session with the ITLeens quenched their curiosity to convert their hobby into skills and choose a career. Focussing on acquiring World Skills, the students were guided to apply their knowledge and enhance their skills. “Any skill can be transformed into a profession” was the message taken by one and all.
