

ITL CONDUCTS WORKSHOP ON CAREER OPPORTUNITIES

Date : 9 August 2018

Venue : Auditorium

Organized By : ITL Public School

Conducted by : Mr. Ramesh Mishra

Participants : Students of Class XI- XII

“Choose a job you love, and you will never have to work a day in your life”

With a myriad career opportunities, available, the students often remain sceptic about the field they wish to choose. ITL Public School recently conducted a workshop for the students of Science Stream of Senior Secondary classes on ‘**Emerging Career Opportunities After Class 12th**’.

The session was conducted by Mr. Ramesh Mishra, from Narsee Monjee Institute of Management Studies. He apprised the students about various Engineering streams like **Data Sciences, Mechatronics and MBA Tech** that have not been explored much. He also enlightened the students about the differences between various branches of Engineering like Mechanical, Civil, Computer, IT etc apart from giving valuable cues on how to clear the NPAT Entrance Exam.

The session was extremely ingenious for the students who were empowered with a lot of information. The students got valuable insight on the role of engineers and how to choose a specialized stream in engineering. The resource person also clarified the general perceptions and myths about streams of engineering that students usually have while taking up the course. Lastly the session concluded on a detailed discussion about skill-set tested through entrance exams for engineering.
