

### **EDUCATIONAL TRIP TO BENNETT UNIVERSITY**

**Date** : 21<sup>st</sup> December 2018  
**Venue** : Bennett University  
**Organized By** : ITL Public School  
**Conducted by** : Dr Ayan Khan and Professor Krishna Thyagarajan  
**Participants** : Maths Students of Class XI

ITL Public School organized an educational trip to Bennett University for the Mathematics students of class XI on the eve of Mathematician Ramanujan's birthday.

Dr Ayan Khan and Professor Krishna Thyagarajan conducted a very informative workshop on the topic: Mathematics-The Queen of Sciences.

The workshop elaborated on the numerous number of strides Ramanujan had made in the field of Mathematics. Students got to know about the life and contributions of Ramanujan like taxicab's no, challenging patterns and problems of summation till infinity and a lot more.

They also got intrigued by the astounding and remarkable works of great mathematicians like Gerolamo Cardano, Evariste Galois, Leonhard Euler, The Bernoulli family etc.

The entire lecture session was immensely enlightening for the students and also quite fun as they really enjoyed the various experiments and challenges conducted during the lectures.

This was followed up with a breath-taking campus tour through which students got to appreciate the infrastructure of the prestigious university even more.

The entire experience was enjoyed thoroughly by the students of our school as it was really worthwhile.
