World's Biodiversity Day
May 22, 2019
Class X and XII
Ms. Shikha Sikka, Ms. Prathishtha

ITL Public School celebrated World Biodiversity day on May 22, 2019. The theme of world biodiversity day 2019 is “Our Biodiversity, Our Food, Our Health”. This year’s celebrations of the International day for biological diversity focused on biodiversity as the foundation for our food and health and a key catalyst to transform food systems and improve human health. The theme aims to leverage knowledge and spread awareness of the dependence of our food systems, nutrition and health on biodiversity and healthy ecosystems. The awareness was spread among students by giving substantial information on importance of biodiversity. Videos and inspirational talks of environmentalists were shown through smart boards thus sensitising students to this important issue. Thereafter the theme was discussed in classes and all the students gave their valuable inputs. Observing the day was a great learning experience for all.

Awareness with help of videos and speech of eminent environmentalists

Sensitising the students about the importance of biodiversity
