

Report on Mathematics Day

Day/ Date : 19 December 2019

Venue : ITL PUBLIC SCHOOL

Conducted By: Mathematics Department

Attended By: Classes I - XII

ITL Public School celebrated **Mathematics Day** on 19 December 2019 . A plethora of activities were organized across all the classes. Students of **Class I** participated in **Apple Treat Activity** to solve simple problems of addition. **Clock Making** was organized for the students of **Class II**. Students of **Class III** showed their creativity in **My Robot Activity** using 2D/ 3D shapes. **Class IV** was involved in **Weight Wonders** where the students were able to compare small and big weights by making their own beam balance. **Class V** participated in **Save to Share Activity** in which items were displayed in front of the students and they were asked to prepare a bill. Students of **Class VI** used their kinesthetic and mental caliber in **Mathpoly** to comprehend mathematical skills in form of presenting their own games. **Class VII** students participated in **Magic in Maths** in which they presented different tricks and explained the underlying mathematical concepts behind them. **Class VIII** participated in **Rubik's Cube Challenge** to enhance the focus and concentration. To encourage young learner to get involved and to create love for the subject, the **Innovita - Mathematical Model Making Competition** was organized for students of **Classes IX and XI**. Students presented models on different topics like Application of Trigonometry, Pythagoras Theorem, Golden Ratio, Fibonacci series etc.

These activities aimed at helping the students to understand the application of the subject, appreciate the diversity and dispel mathematics phobia in them.
