

Report on PTM

Event: Virtual Parent Teacher Interaction

Date: 15 & 16 May 2020

Classes: I-V

PTM of Classes I-V was very unique this time as it was virtual. The parents appreciated the fact that the online classes led to learning with enjoyment. The parents were apprised about the performance their ward in the class. They appreciated the initiative taken by the school to conduct online classes as they said they were very worried about their ward's education. Parents acknowledged the hard work put in by the teachers and also appreciated the coordination amongst the staff members. They found it very informative & easy to understand the concepts taught. The PTM was concluded successfully with positive feedback from the parents about the efforts of the school and the teachers.
