

Orientation Programme for Class X

| | | |
|---------------------|----------|--|
| DATE | : | 29 NOV'14 |
| VENUE | : | ITL PUBLIC SCHOOL |
| ORGANISED BY | : | ITL PUBLIC SCHOOL |
| CONDUCTED BY | : | MS. SUDHA ACHARYA, PRINCIPAL |
| ATTENDED BY | : | STUDENTS, PARENTS & TEACHERS OF CLASS X |

With a zest to empower and inform the students to navigate their career course in the right direction, the guiding force and dynamic leader, the Principal of ITL PUBLIC SCHOOL, Ms. Sudha Acharya took the august gathering by storm, by conducting a very informative session on Class XI Stream Selection and various Career Options.

Her honest appeal to the students to follow their heart and passion while choosing the stream in class XI, by not coming under any kind of peer, parental or societal pressures, left a great impact on the young pioneers of tomorrow. She apprised the gathering with the latest career options in the three streams : Science, Commerce & Humanities like Astro-Physics, Microbiology in Agriculture, Entrepreneurship, International Relations, Fashion Studies, Hospitality Industry, Financial Management, Fine Arts, Multimedia, Beauty & Health related professions to name a few. While emphasizing on the fact to identify one's aptitude, she stressed that one doesn't need to spend hours if one has a passion towards one's profession. If one pursues one's hobby as one's profession then it becomes a game for one's lifetime. One doesn't need to struggle or slog for one's whole life. One needs to be focussed and excel in whatever one chooses as a profession. She promised the students to help them in choosing the correct stream in class XI, according to their aptitude and offered the flexibility of a whole range of optional subjects like Legal Studies, Fashion Designing, Maths, Commercial Art and very unusual and interesting combinations with all the three streams to stimulate the latent talent of students. The interactive question and answer session concluded with an earnest plea by the Principal to the parents. **"ALL CHILDREN HAVE IMAGINATION, GIVE THEM WINGS TO FLY TO SEE THEM TOUCH THE ZENITH."**

The workshop acted as a catalyst for all the parents and students to wear their thinking caps and plan their further course of action. As parents walked out of the plush auditorium they felt well-equipped and informed to walk the road called CAREER CHALLENGE with their wards confidently.
