

**Report**  
**Skill Week-Hands on Learning**

**Date: 13 July- 17 July 2020**

**Venue- Primary Wing, ITL Public School**

***“Skill rest in your mind, not in the props you make use of.”***

The Skill Week was observed in ITL Public School from 13-17<sup>th</sup> July 2020. The entire idea of celebrating this week was to raise confidence and give direction through proper skill development and to improve the physical and mental development of the young minds.

The students of **Class I** participated in making ‘**Smiley Squishy Puppet**’. They utilized a pair of socks, black marker, rubber bands, rice and fevicol to make it more beautiful and attractive. The activity was a delightful experience for the students. It was an extremely enriching source of learning for the students.

The skill of making ‘**Stationery Organizer**’ was imparted to the students of **Class II** which they enjoyed thoroughly. Students used empty cans, glue, black marker, white sheet, pencil, eraser, scale, cutouts of few cartoon characters and glue to make colorful and eco-friendly stationery boxes.

The empty cardboard boxes which we usually throw away were used by the students of **Class III** to design a ‘**Treasure Box**’. Some students painted the treasure box to make it more beautiful. Students learnt a new skill through this activity. And the lovely and charming treasure box looked so adorable and eye catching!

Making of ‘**Ornamental Salver**’ was organized for **Class IV** students. Students were taught how to reuse old plates and turn it into a beautiful ornamental salver which has been a part of our households since ages. They were very happy and enthusiastic to make it. The whole activity was very enriching and fruitful.

An activity ‘**Impression in Threads**’ was organized for the students of **Class V**. This age old craft which is slowly fading away has helped the students to come closer to the culture and heritage of our country. The teachers helped the students to make the optimum use of the waste materials like old handkerchief, colourful threads, needle, buttons etc. to create a beautiful impression on a piece of cloth.

It is rightly said- ‘***Adding fun to learning creates the best educational experience possible.***’

## Class 1 - Smiley Squishy Puppet

## Class 2 - Stationery Organizer

## Class 3 - Treasure Box

## Class 4 -Ornamental Salver

## Class 5 -Impression in Threads
