

INTERNATIONAL DAY FOR ELIMINATION OF VIOLENCE AGAINST WOMEN

Date: 25 November 2020

Classes: IX- X

“Nothing is more important than stopping the violence against women. The desecration of women indicated the failure of human beings to honor and protect life.”

- Eve Ensler

Violence against women and girls is one of the most widespread, persistent and devastating human rights violations in our world today which remains largely unreported due to the impunity and silence surrounding it. **ITL Public School** has always endeavoured to shape up the personality of its students in a way that they prove their worth as global citizens and contribute to the society. As part of one such endeavor, the school observed the **International Day For Elimination of Violence Against Women and Girls**.

To mark the day and to raise the awareness, the students of classes IX and X made an incredible video highlighting the importance of the issue. The video highlighted the aim of observing the day and also mentioned the slogans that have been raised throughout the world. The students worked quite industriously as they presented the statistics related to the cases of violence against women and girls to shed light on the severity of the issue.

Lastly, the video also showed up the role that each one of us can play to curb the problem of violence against women and girls, highlighting the 2020 campaign theme of the United Nations: **ORANGE THE WORLD: FUND, RESPOND, PREVENT, COLLECT!**
