

# REPORT: DIWALI & CHILDREN'S DAY CELEBRATION

**DAY/DATE:** 12 November 2020

**Classes Involved:** I- V

**PLATFORM:** ZOOM MEETING

**“Spiritually, life is a festival, a celebration. Joy is the essence of life.”**

Diwali: the festival of lights, marks the triumph of good over evil and light over darkness. Children are the epitome of innocence and pure love. There is no garden as beautiful as childhood. To mark the occasions of Diwali and Children's Day we at ITL had a virtual celebration. Children dressed up in their traditional attires and enjoyed the online party. Teachers explained the importance of Diwali and students decorated diyas with colours and glitter. Teachers surprised everyone when they shared some beautiful videos with their students. Both teachers and students sang songs and played games and enjoyed the celebration wholeheartedly. The students and the teachers were not in the physical space but were connected digitally. The students appreciated the creativity of the teachers amid the changed circumstances. It was a vibrant experience for all.

***Fun with games***
