

NATIONAL ENERGY CONSERVATION DAY

Conducted by: Classes IX -X

Date of Event: 14 December, 2020

Mode of Conduction: Online

ITL Public School observed **National Energy Conservation Day** on December 14, to build awareness on the need for energy along with its conservation, efficiency, and optimisation, in order to make our world a better place. Keeping in view the issues of global warming and climate change in current times, main emphasis needs to be laid on the efforts that can be put in towards saving energy resources and 4R's of sustainability -*Reduce, Recycle, Reuse and Recover*.

The message was given through digital posters which were prepared by students and shared on social media.
