

NATIONAL POLLUTION CONTROL DAY

Conducted by: Classes IX -X

Date of Event: 2 December 2020

Mode of Conduction: Online

ITL Public School observed National Pollution Control Day on December 2, 2020, to build awareness on the rising level of pollution in the world and majorly in Delhi. The day holds a lot of significance as it commemorates the worst industrial disaster, Bhopal Gas Tragedy. Keeping in view the hazardous effects of pollutants on our health, children of class IX-X presented a thought provoking video to explain the deteriorating air quality in the world and Delhi in particular. Students emphasised upon the various aspects of health risks associated with rising levels of pollution. The young ITLeens also suggested measures to control pollution and enthusiastically participated in campaign to create awareness regarding this inescapable issue.
