

ITL PUBLIC SCHOOL

International Day of Women and Girls in Science

Date: Feb.11, 2021

Class: VI-VIII

Theme - International Day of Women and Girls in Science

The outbreak of the COVID-19 pandemic has clearly demonstrated the significant role of women researchers in different stages of the fight against COVID-19, from advancing the knowledge on the virus, to developing techniques for testing, and finally to creating the vaccine against the virus. In order to achieve full as well as equal participation of women and girls in science, the United Nations General Assembly declared **11 February as the *International Day of Women and Girls in Science.***

Science and gender equality are both vital for the achievement of the internationally agreed development goals, including the 2030 Agenda for Sustainable Development. Over the past 15 years, the global community has made a lot of effort in inspiring and engaging women and girls in the field of science.

To highlight the same, ITLeens of **Classes VI-VIII** prepared an online calendar for year 2021, depicting role of Indian women in the field of Science.
