

WORLD HEALTH DAY

Conducted by: Classes IX -X

Date of Event: 7 April 2021

Mode of Conduction: Online

“Health is the state of complete harmony of the body, mind and soul.”

ITL Public School observed **World Health Day** on April 7 2021, to create awareness regarding important issues such as physical and mental well-being. World Health Day is celebrated to mark the anniversary of the founding day of World health organisation (WHO) in 1948. ITL Public School joined hands with parents to take care of physical and mental well-being of our students during this pandemic. Students of class IX-X prepared digital posters to emphasise upon the need to join a campaign in **‘Building a fairer and healthier world’**, which also the theme of the day this year.
