

ITL CELEBRATES EARTH DAY

Name of the Event: Earth Day Celebration

DATE: April 22, 2021

Platform: Online

CLASSES PARTICIPATED: I TO XII

CONDUCTED BY: Science Department

“Heal the Earth; Heal our Future – Make every day Earth Day”

Earth day is observed every year on 22 April. It is an annual event which attempts to raise global public awareness for the well-being of the planet and all the life it supports. It aims to shine a light on the serious environmental problems we are facing, from climate change to air pollution and deforestation.

The theme for this year’s earth day is “**Restore Our Earth**”, which focuses on the need to reduce our impact on the planet as we recover from the effects of Covid-19.

ITL celebrates Earth Day every year with great zest, and even amidst this crisis, ITLeens have taken the initiative to spread awareness digitally. A plethora of activities were designed with an aim to sensitize the students towards the conservation of natural resources and to motivate them to do their bit towards making our Earth beautiful.

The tiny tots from Candyfloss presented “**An Ode to the Earth**” in the form of short action poems.

Students of classes I and II designed caricatures and posters on “**My Happy Earth**” where they cut, sorted, pasted and even drew the things which make the Earth happy and shared the do’s and don’ts to keep our Earth safe.

Class-III students participated in an online activity '**The Earth is in my Hands**', in which they made cut outs of their hands and wrote ten steps which can foster health of our ailing planet. Students of Class-IV created magical miniature gardens using their creativity and imagination for the online activity '**Container Fairy Garden**'. They used old pot/recycled jars, potting soil/ moss, seasonal plants, pebbles, bark, twigs and leaves, decor and fairy figurines.

Classes VI to X made an Attempt to align their activities with many of the United Nation's 'Sustainable Development Goals' (SDGs).

Class XII students presented their concerns, and suggested remedies, on an intellectual platform by designing an **E-magazine**.

A **video** show-casing these activities and sharing factual information on how we, humans, have been exploiting our resources, was made to pull people out of their reverie.

The Earth Day celebrations serve as a reminder that each of us has a responsibility to make our planet happier, healthier and greener, for generations to come.

HAPPY EARTH DAY!!!

THE JOURNEY SO FAR

INVESTMENTS IN RENEWABLE ENERGY GENERATE THREE TIMES MORE JOBS THAN INVESTMENTS IN POLLUTING FOSSIL FUELS. INDIA IS ALREADY PUSHING AHEAD IN THIS DIRECTION. SINCE 2015, THE NUMBER OF PEOPLE WORKING IN RENEWABLE ENERGY IN INDIA HAS INCREASED **FIVE-FOLD**.

INDIA IS A **PIONEER** WHEN IT COMES TO DRIVING INNOVATION FOR ACCESS TO ELECTRICITY AND CLEAN COOKING. INDIA CAN BECOME A TRUE **GLOBAL SUPERPOWER** IN THE FIGHT AGAINST CLIMATE CHANGE IF IT SPEEDS UP ITS SHIFT FROM FOSSIL FUELS TO RENEWABLE ENERGY.

ERGO, AT THE STROKE OF THE MIDNIGHT HOUR, WHEN THE WORLD WILL SLEEP, INDIA WILL AWAKE TO A LIFE OF SUSTAINABILITY AND SUBMIT ITS LEGACY OF CHANGE.

~Prateek Arsh

"EDUCATE, INNOVATE AND BE AWARE"

Glimpses from the e-magazine

"Small hands can change the World"- Students of classes I to V participatw enthusiastically in 'caricature and poster-making activity'.
