

ITL OBSERVES INTERNATIONAL BIODIVERSITY DAY

DATE : **MAY 22, 2021**
VENUE : **ONLINE**
PARTICIPATED BY : **I TO XII**
CONDUCTED BY : **SCIENCE DEPARTMENT**

*"Biodiversity is the greatest treasure we have...Its diminishment is to be prevented at all cost
"-Thomas Eishner*

ITL PUBLIC SCHOOL observed the international day of Biodiversity on May 22, 2021. The International Day for Biological Diversity is celebrated each year on 22 May, to raise global awareness about the importance of protecting biological resources and the global biodiversity that shapes our environment. This day focuses not only on the various species of plants, animals and microorganisms around us but also the genetic diversity of each of them and the great variety of ecosystems that make up our planet.

Students of class X prepared a **podcast** to sensitize people regarding importance of biodiversity. Through the podcast, emphasis was made on how even small steps can help to save our biodiversity. **Posters** were prepared by students to raise concern and awareness. The podcast and posters were shared on WhatsApp groups of classes I-XII to spread awareness.
