

Report on Unlocking the Secrets of Hydroponics

Date : June 02, 2021
Organised By : Entwurf Innovations Private Limited
Conducted By : Ms. Aroona More
Attended By : Teachers of Science Department

Food Is Rapidly Becoming The New Oil And Land Is The New Gold -Lester Brown

Based on the above thought, a workshop was organised on 2nd June, 2021 on ***Unlocking the Secrets of Hydroponics***

Growing hydroponic vegetables at home can be a lifeline amidst Corona Crisis. It was made very easy to understand through an Online Training Webinar conducted by Ms. Aroona More, a leading Hydroponics Entrepreneur and Maharashtra's First Woman Hydroponic Farmer practicing hydroponics since more than 15 years.

The webinar was a fruitful approach for all the members as they learnt :

- How to grow pesticide free vegetables in a hassle free space saving method that can grow up to 10 times the plants in half time using Hydroponics.
- Future of Hydroponics
- Components of a Hydroponics System
- Operations on a Hydroponic Farm
- Hydroponics Industry Statistics
- Guided steps to plan a Hydroponic Business

Ms Aroona conducted a very friendly interactive session by taking queries and motivated all the team members for a safe and a healthy way of life. She encouraged to bring change in this agriculture practice using modern techniques of quality food production, i.e. Hydroponics farming and even shared the contributions of hydro growers in different parts of the country.
