

## **ITL celebrates World Environment Day- “ONLY ONE EARTH”**

<b>Name of the Event</b>	<b>:</b>	<b>World Environment Day</b>
<b>Date</b>	<b>:</b>	<b>5 June 2021</b>
<b>Platform</b>	<b>:</b>	<b>Online</b>
<b>Classes participated</b>	<b>:</b>	<b>I TO XII</b>
<b>Conducted by</b>	<b>:</b>	<b>Environment Club</b>

*“Nature teaches more than she preaches. There are no sermons in stones. It is easier to get a spark out of a stone than a moral” — John Burroughs*

World Environment Day, is celebrated on June 5 annually, to encourage awareness and environmental protection. The day is celebrated by engaging children and citizens to focus their efforts on a pressing environmental issue.

World Environment Day 2021 theme was '**Ecosystem Restoration**' - a global mission to revive our mother Earth. **Reimagine. Recreate. Restore.** Together, these form the theme of World Environment Day 2021 on 5 June, a day when the UN seeks to focus the attention of investors, businesses, governments and communities on the increasingly urgent need to restore the Earth's ecosystems. Ecosystem restoration means preventing, halting, and reversing this damage – to go from exploiting nature to healing it. Investing in ecosystems is investing in our future. The fact remains that only with healthy ecosystems can we enhance people's livelihoods, counteract climate change and stop the collapse of biodiversity.

On the occasion of World Environment Day, young ITLeens pledged to work hard in making Earth a greener and healthier place to live by creating an awareness video and spreading message through joyful activities. The students of **Class I** created **Paw Print Trivia** showcasing their love for the pets at home. Students of **Class II** participated in **My Little Steps** activity showcasing water conservation techniques at home. Students of **Class III** created **Compost Sandwich Bag** using biodegradable waste generated at home. Students of **Class IV** created **Scrap Garden** using vegetable scrap at home. Children of **Class V** created and demonstrated formation of **Ecobricks** by recycling plastic waste at home and described its importance.

Students took **an oath** to join hands and save our beautiful planet as there is no other place in the universe so beautiful, vibrant and lively like our mother Earth. We must come together to protect

and save our planet in order to make it a healthier and happier place to live for our generations to come. It was an occasion to think about how we are a part of nature and how intimately and unequivocally we depend on it for survival.

For classes **VI-VIII**, competitions were held where they had to “**create their own Biodome.**” Students participated with lot of enthusiasm and created their own self sustainable structures and prepared videos.

For classes **IX-XII**, **Poster making and short film making competition** was held. Students raised various environmental issues, and also showed various solutions through short film to save our environment.

Best Biodomes, posters and short films were awarded E-certificates.

Students of Class XII prepared an **E-Comics** to spread awareness and emphasized on theme Eco-Restoration.

Ecosystem Restoration can happen by actively planting trees or by removing pressures on the ecosystem by protecting environment and reducing the increasing level of pollution. The current pandemic scenario has shifted focus to the restoration of balance between humans and nature.

Class I- **Paw Print Trivia** showcasing their love for the pets at home.

ITL PUBLIC SCHOOL  
celebrates...

# Environment Day, 5 June

**Heartiest Congratulations to Winners!**

**CREATE AND DESIGN YOUR OWN BIODOME(6-8)**

- 1 Aishani Chauhan (VII-D)
- 2 Unnati Mathur (VII-E)

**SHORT FILM MAKING COMPETITION (9-12)**

1 Naisha Chandoyke (IX-A)  
Bhumi Suri (IX-B)  
Maanya Sharma (IX-D)  
Amrita Bhola (IX-D)

2 Navya Tomar (XI-F)  
Devraj Gothi (XII-B)  
Khushi Yadav (XII-F)  
Nisarg Patel (XII-B)
