

WEBINAR ON READING

Resource Person: Ms Vasu Primlani

Name of the Event: Webinar on Reading

Date: 10- 11 June 2021

Venue: Online

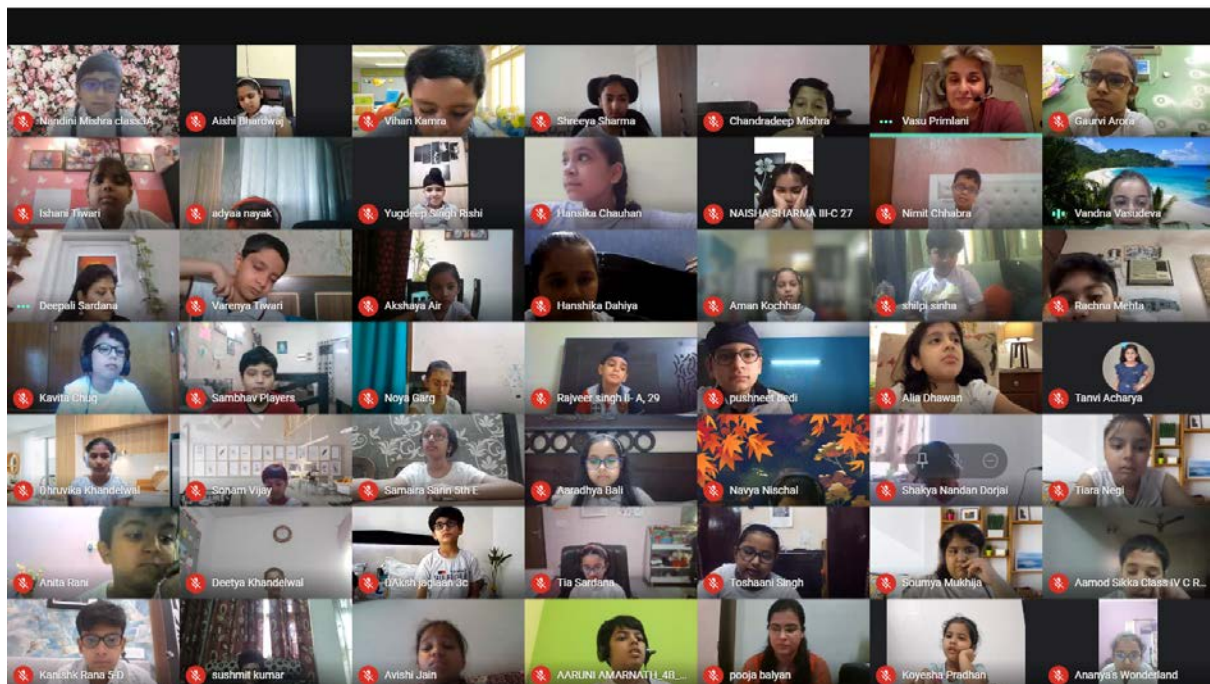

Participated By: I-V

Conducted By: Primary Wing

Reading is to mind, as exercise is to body.

This is because it is through reading that we gather our knowledge as well as enrich our brain with productive thoughts and accelerate our imagination and innovation. Also, we boost our skills through reading. Good books can inform you, enlighten you and lead you in a right direction. There is no better companion than a good book. Once you start reading, you experience a whole new world.

Webinar on reading was held for Classes I-II on 10 June and for Classes III-V on 11 June'21. The resource person Ms Vasu Primlani, a stand-up comedian and author of a picture book 'Baby Cheep Cheep', shared some useful techniques to read picture books. She introduced her book and the students identified the characters and also guessed the actions through pictures. The creativity of the students was enhanced as they weaved the story by looking at the pictures. She motivated the children to read good books. Through her story she guided the students not to be gender biased. She provided wings to the imagination of the little ones as every child looked at the pictures with a different perspective. The students learnt that everything does not stay with us forever so we should not be sad on losing something. The session was enriching and will help the students to develop interest in reading and also be innovative in presenting their ideas.
