

REPORT ON CHILD LABOUR DAY

“There can be no keener revelation of a society’s soul than the way in which it treats its children”.

- Nelson Mandela

Students of ITL PUBLIC SCHOOL observed **World Day Against Child Labour** on **12 June 2021**. This yearly celebration spread awareness about the harmful mental and physical problems faced by children forced into child labour and reiterates the rights of the children. It is indeed important that we sensitize our youth to stand up against child labour and find ways to eradicate it. To spread awareness about issue of Child Labour, three posters and two videos were made by the students and shared on official sites and social media.

This year's World Day Against Child Labour focuses on action taken for the 2021-International Year for the Elimination of Child Labour. The International Labour Organization (ILO) estimates that worldwide approximately 218 million children between 5 and 17 years are engaged in some form of employment. A child is meant to learn and not earn. India has progressed in reducing child labourers drastically with the help of government's schemes such as Beti Bachao Beti Padhao, Mid-Day Meal Scheme, Rashtriya Madhyamik Shiksha Abhiyan and many more. Students pledge to join them this year and ensure each and every child gets education!
